

IMPORTANCE OF PERSONAL HYGIENE AND FIRST AID; AWARENESS AMONG SCHOOL CHILDREN

NSS volunteers of M.V.J College of nursing organised health education programme at child development centre, Dandupalya, Hoskote on **13/04/2015** to create awareness about importance of personal hygiene and first aid; awareness among school children. An interesting health talk and slide show by Ms. Geetha, lecturer department of child health nursing created an awareness about dengue fever, its treatment and prevention among 100members including children who participated in the event. Overall, it was an enjoyable and learning experience for our students where they were able to contribute in their own way

o help the local community and neighbourhood. Special thanks to Mrs. Omana, social worker at child development centre for supporting the NSS volunteers in gathering the public.
